DYNAMIC COMPUTRONICS PVT. LTD.

COMPANY PROFILE

Company Profile

Dynamic Computronics Pvt. Ltd. (DCPL), formerly Computronics, was brought to life in the year 2007 with an aim to provide top quality services encompassing the wide array of Information Technology. The company is currently based in Kolkata, India. Constant improvisation accompanied by a burning passion to grow, and our never-ending urge to excel has given us the confidence to cater to the various demands of the IT field in a simplified, user friendly manner ensuring optimum level productivity.

We are currently offering services like Website Designing and Development, Customized Software Development, Placement Consultation Services and SAP implementation services. We have been services to both domestic and international markets, and we have a reputation of providing our services well within the stipulated time period. Our core team of developers is young and energetic, yet experienced and determined, to nurture and fix any challenges that may eventually come up.

Over the past 4 years, DCPL has been providing a wide array of end-to-end IT solutions for a range of key vertical industries and horizontal competencies. Leveraging a powerful combination of the best industry-proven practices and leading standards, strategic vision, a vast spectrum of technical and technological competencies, DCPL offers its clients a comprehensive suite of IT services that has been widely appreciated by our clients.

Our Expertise

Our core services span the following IT practice areas:

- ➔ **Software Development Services**
- ➔ **IT Recruitment and Manpower Supply**

Software Development Services

We employ a highly expert and skillful team of IT professionals. Our development team is further divided into 2 teams, each consisting of their respective Team Leaders, Programmers, Designers and Content Writers. Every team member contributes to reinforcing our thought of leadership position by bringing in unique perspectives to every solution mix we offer. E-business integration is serious business and we have with us people who are serious about doing it well, and having fun doing it.

Detailed below are the technologies stated for perusal and reference:

- **.NET Framework (VB.NET, ASP.NET, C#)**
- **Microsoft .NET Compact Framework – Mobile Development**
- **Microsoft SQL Server / Oracle**
- **Flex, Streaming media services**
- **XML / HTML / JavaScript / AJAX / Web 2.0**
- **PHP / MySQL (Open Source tool: Joomla, OSCommerce, CakePHP)**
- **Design services**
- **SEO / Link Building (On-Page / Off-page optimization)**

IT Recruitment & Manpower Supply

We have recently ventured in the field of recruitment & manpower services. Our objective is to cater & provide requisite manpower requirement of various companies in India and overseas countries to their entire satisfaction since we are a one- source multi-resources organization. Our Modus Operandi / Core strength is our well trained and experienced staffs who are specialized in talent hunt i.e. identifying and sourcing candidates from the exact companies in India who are engaged in similar business related to our clients. This way we not only save time but also help our clients recruit suitable staff in short time.

- We first understand the complexities of our client's culture. We do not look at recruitment in isolation. We provide candidates with relevant experience and skills to meet your recruitment needs.
- We offer a quality of service that will surpass our client's expectations. We believe that people must match Companies, not just jobs.
- Our service starts with building up relationship with the client and working on focused and well-defined job profiles to get the right person.
- We believe in meeting the client's requirement within a framework of a specific schedule and in a cost effective manner. We work closely with the client through all the stages of the assignments.
